Julius Bär

Termsheet – 22 September 2026

5Y JB CAPPED FLOORED FLOATER

(the "Products")

SSPA SWISS DERIVATIVE MAP©/ EUSIPA DERIVATIVE MAP© CAPITAL PROTECTION NOTE WITH COUPON (1140)

100% CAPITAL PROTECTION – SOFR – MINIMUM INTEREST RATE (FLOOR) OF 4.70% P.A. – MAXIMUM INTEREST RATE (CAP) OF 5.75% P.A – CASH SETTLEMENT – USD

This termsheet is for information purposes only. It constitutes advertising within the meaning of Art. 68 of the Swiss Federal Act on Financial Services ("FinSA"). It constitutes neither a prospectus within the meaning of Art. 35 et seqq. FinSA, nor a key information document according to Art. 58 et seqq. FinSA. It has neither been reviewed nor approved by a reviewing body pursuant to Art. 51 et seqq. FinSA.

This Product does not constitute a collective investment scheme within the meaning of Art. 7 et seqq. of the Swiss Federal Act on Collective Investment Schemes ("CISA"). Therefore, it is not subject to authorisation by the Swiss Financial Market Supervisory Authority FINMA ("FINMA"), and potential investors do not benefit from the specific investor protection provided under the CISA and are exposed to the credit risk of the Issuer.

I. Product Description

Terms

Swiss Security Number (Valor)	159861069
ISIN	CH1598610694
Issue Size	Up to USD 20,000,000 (may be increased/decreased at any time)
Issue Currency	USD
Issue Price	100.00% (per Product; including the Distribution Fee)
Denomination	USD 1,000.00
Capital Protection	100%

Issue Date/Payment Date

29 September 2026, being the date on which the Products are issued and the Issue Price is paid.

Last Trading Date

24 September 2031 being the last date on which the Products may be traded.

Final Redemption Date

29 September 2031 being the date on which each Product will be redeemed at the Final Redemption Amount, unless previously redeemed, repurchased or cancelled.

Redemption

Final Redemption	Unless previously redeemed, repurchased or cancelled, the Issuer shall redeem each Product on the Final Redemption Date by payment of a cash amount equal to the Final Redemption Amount to the Holder thereof.
Final Redemption Amount	100.00% of the Denomination.
Settlement Type	Cash settlement

Interest

	The Issuer shall pay the relevant Interest Payment Amount per Product on each Interest Payment Date to the Holder thereof, *provided* that the Products have not been redeemed, repurchased or cancelled on or prior to such Interest Payment Date.
Interest Payment Amount	with respect to any Interest Payment Date, a cash amount equal to the product of (i) the Denomination, (ii) the Day Count Fraction with respect to the relevant Interest Period and (iii) the relevant Interest Rate.

Interest Commencement Date	the Issue Date.
Interest Payment Date(s)	29 March, 29 June, 29 September and 29 December of each year, the first Interest Payment Date being 29 December 2026 and the last Interest Payment Date being 29 September 2031, being the dates on which the Issuer shall pay the relevant Interest Payment Amount per Product to the Holders.
Interest Period	(i) with respect to the first Interest Payment Date, the period from and including the Interest Commencement Date to and excluding such Interest Payment Date, and (ii) with respect to any other Interest Payment Date, the period from and including the immediately preceding Interest Payment Date to and excluding such Interest Payment Date.
Day Count Fraction	30/360
Business Day Convention	Modified following, unadjusted
Interest Rate	with respect to any Interest Payment Date, a rate per annum equal to the lesser of (i) the Maximum Interest Rate and (ii) the greater of (x) the Reference Rate on the relevant Interest Determination Date and (y) the Minimum Interest Rate.
Maximum Interest Rate (Cap)	5.75% per annum.
Minimum Interest Rate (Floor)	4.70% per annum
Reference Rate	Compounded Daily SOFR, calculated on the basis of the daily Secured Overnight Financing Rate as provided by the Federal Reserve Bank of New York (or any successor in such capacity), in accordance with the definition of "Compounded Daily SOFR" with respect to an Interest Period, but in any event not lower than zero(0).
Compounded Daily SOFR	means, with respect to an Interest Period, the rate of return of a secured daily compound interest investment during such Interest Period (with the daily Secured Overnight Financing Rate as the reference rate for the calculation of interest) as calculated by the Calculation Agent on the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards): $$\left[\prod_{i=1}^{d_0}\left(1+\frac{SOFR_{i-pUSBD}\times n_i}{360}\right)-1\right]\times\frac{360}{d}$$ where: **d_o** is, for any Interest Period, the number of U.S. Government Securities Business Days in the relevant Interest Period; **d** is the number of calendar days in the relevant Interest Period; **i** is a series of whole numbers from one to d_0, each representing the relevant U.S. Government Securities Business Day in chronological order from, and including, the first U.S. Government Securities Business Day in the relevant Interest Period; **n_i**, for any U.S. Government Securities Business Day, means the number of calendar days from (and including) such U.S. Government Securities Business Day up to (but excluding) the following U.S. Government Securities Business Day; **p** is the number of U.S. Government Securities Business Days included in the Observation Look-Back Period; **SOFR $_{i-pUSBD}$** means, in respect of any U.S. Government Securities Business Day i falling in the relevant Interest Period, the SOFR Reference Rate for the U.S. Government Securities Business Day falling *p* U.S. Government Securities Business Days prior to such day.
Observation Look-Back Period	means 5 U.S. Government Securities Business Days
Observation Method	means Lag
U.S. Government Securities Business Day or USBD	means any calendar day except for a Saturday, Sunday or a calendar day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire calendar day for purposes of trading in U.S. government securities.
SOFR Reference Rate	means, with respect to any U.S. Government Securities Business Day ("**USDBDx**"), a reference rate equal to the daily secured overnight financing rate ("**SOFR**") for such USDBDx as provided by the Federal Reserve Bank of New York, as the administrator of such rate (or any successor administrator of such rate) ("**SOFR Administrator**") on the website of the Federal Reserve Bank of New York at **http://www.newyorkfed.org**, or any successor website or the website of any successor administrator for the publication of such rate (the "**New York Federal Reserve's Website**") (in each case, on or about 5pm New York City time, on the U.S. Government Securities Business Day immediately following such USDBDx) or if the New York Federal Reserve's Website is unavailable as otherwise published by or on behalf of the relevant administrator.

Interest Determination Date	means the **fifth** U.S. Government Securities Business Day prior to the relevant Interest Payment Date.

Swiss Taxation

Stamp duty	Secondary market transactions of the Product are in principle subject to Federal turnover tax if a Swiss securities dealer is a party to the transaction or acts as intermediary thereto.
Withholding tax	No Swiss Federal withholding tax.
Income tax	For Swiss income tax purposes, this Product qualifies as bond-like financial instrument. For individuals residing in Switzerland and holding the Product as private asset, the periodic interest payments are subject to income tax. Taxable amounts in foreign currencies have to be converted in CHF at the relevant daily conversion rates.

The aforementioned tax description is based on the relevant tax laws and regulations of the tax authorities valid at the time of launch of this issue. These laws and regulations may change at any time, possibly with retroactive effect. Furthermore the tax treatment may depend on the personal situation of the investor and may be subject to change in the future. This information is not purported to be a complete description of all potential tax effects. Potential investors are advised to consult their tax advisors to determine the special tax consequences of the purchase, ownership or disposition of the Product.

General Tax Information

Transactions and payments related to this product may be subject to additional (foreign) transaction taxes and or withholding taxes such as US withholding taxes pursuant to FATCA (Foreign Account Tax Compliance Act) or the Section 871(m) of the US Internal Revenue Code. Any amounts due, shall be paid net of such taxes. The issuer is not obliged to pay additional amounts with regard to amounts so withheld.

Product Description

The Products provide for a fixed redemption amount equal to 100% of the Denomination, which investors in such Products will receive on the Final Redemption Date (so long as not early redeemed).

The Products further provide for the payment of Interest Payment Amounts, which are variable and depend on a Reference Rate (floored at 4.70% p.a. – capped at 5.75% p.a.).

Product Documentation

The complete and legally binding terms and conditions of the Products are set forth in the base prospectus (consisting of the Securities Note II for the issuance of Fixed Income Products dated 28 May 2026 (the "Securities Note") and the Registration Document II of the Bank Julius Baer & Co. Ltd. dated 27 May 2026 (the "Registration Document")) of Bank Julius Baer & Co. Ltd. (the "Bank"), as supplemented from time to time (the "Base Prospectus") and the relevant final terms prepared in relation to the Products (the "Final Terms"). The Base Prospectus and the Final Terms may be obtained free of charge from Bank Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

In addition, a key information document in accordance with FinSA or in accordance with Regulation (EU) No. 1286/2014 of the European Parliament and of the Council («PRIIP Regulation»), respectively, has been prepared and made available at https://derivatives.juliusbaer.com/.

This document is designated for distribution and use in Switzerland. Neither the Issuer nor any other person assumes any responsibility for the compliance of this document with any applicable law and regulations in any other jurisdiction than Switzerland.

Details

Issuer	Bank Julius Baer & Co. Ltd., Guernsey Branch (Rating: Moody's A3) (Prudential Supervision: by the Swiss Financial Market Supervisory Authority FINMA)
Lead Manager	Bank Julius Baer & Co. Ltd., Zurich
Risk Category	Complex Product
Product Category	Fixed Income
Product Type	Capital Protection Note with Coupon
SSPA Code	1140
Calculation Agent	Bank Julius Baer & Co. Ltd., Zurich and any agents or other persons acting on behalf of such Calculation Agent and any successor appointed by the Issuer

Minimum Trading Lot	1 Product(s)
Quotation	The Products are traded in percentage of the Denomination at a full price (dirty price), including interest and premium rights, and are booked accordingly.
Clearing System	SIX SIS AG
Form	Uncertificated Securities
Governing Law / Jurisdiction	Swiss Law / Zurich 1, Switzerland

II. Profit and Loss Prospects

The potential return on a Product is limited to the Interest Payment Amounts scheduled to be paid on the relevant Interest Payment Dates.

If the Products are sold in the Secondary Market prior to the Final Redemption Date, investors may receive a redemption amount that is considerably lower than the Final Redemption Amount that would have otherwise been received. In such case, the investor in the Product may suffer a partial loss on its investment

III. Significant Risks for Investors

The following risk disclosure cannot disclose all the risks associated with an investment in the Products. Therefore, potential investors in Products should consult the Base Prospectus and the Final Terms and their client advisor as to the product specific risks before making an investment decision.

1. Issuer Risk

Investors bear the credit risk of the Issuer. The Products´ retention of value is dependent not only on the development of the value of the Underlying, but also on the creditworthiness of the Issuer, which may change over the term of the Product. The credit rating of the Issuer is not a guarantee of credit quality. In case of the Issuer's insolvency or bankruptcy the investors in the Products may lose their entire investment.

The Products are direct, unconditional, unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, claims of investors in Products will rank equally in right of payment with all other unsecured and unsubordinated obligations of the Issuer, except such obligations given priority by law. In such a case, investors in Products may suffer a loss of all or a portion of their investment therein, irrespective of any favourable development of the other value determining factors, such as the performance of the Underlying(s).

The Products do not constitute bank accounts or deposits at Bank Julius Baer & Co. Ltd. The Products are less liquid than bank accounts or deposits and bear higher risks. An investment in Products will not be covered by any compensation or insurance scheme (such as a bank deposit protection scheme) of any government agency of Switzerland or any other jurisdiction and Products do not have the benefit of any government guarantee. Products are the obligations of the Issuer only and holders of Products must look solely to the Issuer for the performance of the Issuer's obligations under such Products. In the event of the insolvency of the Issuer, an investor in Products may lose all or some of its investment therein.

Bank Julius Baer & Co. Ltd. is a bank pursuant to the Federal Banking Act (BA; SR 952.0) and a securities firm pursuant to the Federal Act on Financial Institutions (FinIA; SR 954.1) subject to the prudential supervision by the Swiss Financial Market Supervisory Authority FINMA in Berne (Laupenstrasse 27, CH-3003 Berne; http://www.finma.ch).

The Issuer, Bank Julius Baer & Co. Ltd, Guernsey Branch (a branch of Bank Julius Baer & Co. Ltd., Zurich, founded in Switzerland and under the supervision of the Swiss Financial Market Supervisory Authority FINMA), is licensed in Guernsey under the Banking Supervision (Bailiwick of Guernsey) Law 1994 and The Protection of Investors (Bailiwick of Guernsey) Law 1987. Neither the Guernsey Financial Services Commission (P.O. Box 128, Glategny Court, Glategny Esplanade, St. Peter Port, Guernsey, Channel Islands, GY1 3HQ) nor the States of Guernsey Policy Council takes any responsibility for the financial soundness of the Issue or for the correctness of any of the statements made or opinions expressed with regard to it.

2. Product Risks

An investment in Products entails certain risks, which vary depending on the specific type and structure of the relevant Products and the relevant Underlying(s).

An investment in Products requires a thorough understanding of the nature of Products. Potential investors in Products should be experienced with respect to an investment in complex financial instruments and be aware of the related risks. A potential investor in Products should determine the suitability of such an investment in light of such investor's particular circumstances. In particular, a potential investor in Products should:

- have sufficient knowledge and experience to make a meaningful evaluation of Products, the merits and risks of investing in Products and the information contained in the Base Prospectus and the applicable Terms and Conditions;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of such investor's particular financial situation, an investment in Products and the impact the relevant Products will have on such investor's overall investment portfolio;
- have sufficient financial resources to bear all the risks of an investment in the relevant Products;
- understand thoroughly the Terms and Conditions applicable to the relevant Products and be familiar with the behaviour of the relevant Underlying(s) and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect such investor's investment and ability to bear the applicable risks of an investment in Products until their redemption; and
- recognise that it may not be possible to dispose of Products for a substantial period of time, if at all, before their redemption.

The trading market for securities, such as Products, may be volatile and may be adversely impacted by many events.

Products are complex financial instruments. Investors generally purchase complex financial instruments as a way to enhance yield with an understood, measured, appropriate addition of risk to their overall investment portfolios. A potential investor should not invest in Products unless such investor has the expertise (either alone or with the help of a financial adviser) to evaluate how the relevant Products will perform under changing conditions, the resulting effects on the market value of the relevant Products and the impact such an investment will have on such investor's overall investment portfolio.

Risk of total loss

Products involve a high degree of risk, and prospective investors in the Products should recognise that, under certain circumstances, Products may have a redemption value of zero and any Payout Amounts, Interest Amounts and Premium Amounts scheduled to be paid thereunder may not be paid. Prospective investors should therefore be prepared to sustain

a partial or total loss of the amount of their investment therein.

Capped Profit Potential

Investors in Products should be aware that the profit potential in relation thereto is capped.

Unpredictable Market Value for Products

During the term of a Product, the market value of, and the expected return on, such Product may be influenced by many factors, some or all of which may be unpredictable. Many economic and market factors will influence the market value of a Product. The Issuer expects that, generally, the value and volatility of the Underlying(s) on any day will affect the market value of such Product more than any other single factor. However, a potential investor should not expect the market value of a Product in the secondary market to vary in proportion to changes in the value of the Underlying(s). The return on a Product (if any) may bear little relation to, and may be much less than, the return that the investor therein might have achieved if such investor had invested directly in the Underlying(s).

The market value of, and return (if any) on, a Product will be affected by a number of other factors, which may be unpredictable or beyond the Issuer's control, and which may offset or magnify each other, including, without limitation:

- supply and demand for such Product, including inventory positions of any other market maker;
- the expected frequency and magnitude of changes in the market value of the Underlying(s) (volatility);
- economic, financial, political or regulatory events or judicial decisions that affect the Issuer, the Underlying(s) or the financial markets generally;
- interest and yield rates in the market generally;
- the time remaining until the Final Redemption Date;
- if applicable, the difference between the Level or Commodity Reference Price, as applicable, and the relevant threshold specified in the applicable Terms and Conditions;
- the Issuer's creditworthiness, including actual or anticipated downgrades in the Issuer's credit ratings; and
- dividend payments on the Underlying(s), if any.

Some or all of these factors may influence the price of a Product. The impact of any of the factors set forth above may enhance or offset some or all of any change resulting from another factor or factors.

In addition, certain built-in costs are likely to adversely affect the market value of Products. The price at which the Issuer will be willing to purchase Products from a holder in secondary market transactions, if at all, will likely be lower than the original Issue Price.

Exchange Rate Risk

The Underlying(s) may be denominated in a currency other than that of the Issue Currency or, if applicable, the Settlement Currency for such Product, or the Underlying(s) may be denominated in a currency other than, or the Issue Currency or, if applicable, the Settlement Currency may not be, the currency of the home jurisdiction of the investor in such Product. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are in particular influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Therefore, fluctuations in exchange rates may adversely affect the market value of a Product or the value of the Underlying(s).

Secondary Market

Products may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Products easily or at prices reasonably acceptable to them.

Under normal market circumstances, the Issuer will endeavour to provide a secondary market for Products, but is under no obligation to do so. Upon investor demand, the Issuer will endeavour to provide bid/offer prices for products, depending on actual market conditions. There will be a price difference between bid and offer prices (spread).

Early Redemption

The investors must be aware of a possible early redemption of the Product.

Upon the occurrence of an extraordinary event, the Calculation Agent and the Issuer, acting together, have the right to, among other things, early redeem the relevant Products. If the Issuer exercises such early redemption right(s), investors should be aware that the early redemption price may be considerably lower than the Issue Price (or, if different, the price the relevant investor paid for such product) and/or the Final Redemption Amount that would otherwise have been paid on the Final Redemption Date.

Further product specific risks

The amount of interest paid under the Product is based on a floating rate and cannot be anticipated prior to the relevant date on which such amounts are calculated. Due to varying interest rates investors are not able to determine a definite yield at the time they purchase the Product. Investors in the Products are exposed to reinvestment risk if market interest rates decline.

Further, the Products represent an investment linked to a Reference Rate and any interest amount payable hereunder is generally dependent on the performance of the Reference Rate. Reference Rates are mainly dependent upon the supply and demand for credit in the money market, i.e. the rates of interest paid on investments determined by the interaction of supply and demand for funds in the money market. The supply and demand in the money market on the other hand is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors, or upon other factors, depending on the specific type of the Reference Rate. Such factors affecting the performance of the Reference Rate may adversely affect the market value of, and return (if any) on, the Products.

Depending upon the development of the Reference Rate, it is possible that the applicable interest rate for one or more interest periods during the term of the Product may be equal to zero, or, even if the interest rate is above zero, it may be substantially lower than the interest rate that would be applicable to conventional debt securities of the Issuer with a comparable term.

Investors in the Products should be prepared to sustain a partial or total loss of their investment.

Risks in connection with Risk Free Rates

Products for which the Reference Rate references a risk free rate (also "Risk Free Rate" or "RFR") or an RFR-Index, Interest for such Products are regularly determined and announced by the Calculation Agent only in arrears at the end of the interest period on the basis of a formula. The formula incorporates the value of the underlying RFR on the relevant days. If the RFR is negative, the value of the interest will be reduced accordingly.

Risk Free Rates have only been available since 2018 and 2019. Therefore, these Risk Free Rates have a limited history. The first RFR-Indices were calculated for the first time in 2020. This has the consequence that:

- it is difficult to predict the future performance of the Risk Free Rates,
- they are currently not yet widely established in the market, so that little experience is available with regard to their development and integration in financial transactions, and uncertainties exist as to whether market participants regard the RFRs or RFR-Index and their calculation methods as a suitable substitute for all purposes for which EURIBOR and LIBOR (London Interbank Offered Rate) have been commonly used in the past. It cannot be ruled out that the determination of Interest Rates for interest-bearing debt securities of the Issuer and other issuers will be based in the future on a different calculation method related to RFRs or on completely different interest rates and that a completely different market trend will thus develop. It is also possible that there will be a transition to the use of a not yet developed term RFR for interest-bearing debt securities that can be determined in advance has. This may have a negative impact on the market acceptance of RFRs and may also result in the RFR or, RFR-Indices or certain RFR interest rate determination formulas related to RFR not being widely used,
- since the initial publication of the RFRs, daily changes in the RFRs have for example, on occasion, been more volatile than daily changes in other market rates, such as EURIBOR or LIBOR, within the same time periods. It is not possible to estimate how this will continue to develop in future,
- there is a possibility that the administrators of the RFRs will make changes to the methodology or other changes that cause a change in the value of the RFR, including changes to the method by which the RFRs and RFR-Indices are calculated, the selection criteria for transactions used to calculate the RFRs, or the timing of publication of the RFRs, in order to achieve broad market acceptance and
- the securities or investments available on the market with reference to RFR and RFR-Indices may differ substantially, as there is no established market standard. The methods used to determine the interest rate can therefore vary considerably. The various securities or investments may therefore show completely different performances and may not be comparable.

Any of these factors can potentially have a significantly negative impact on the market value and interest payments on the Products. In addition, the trading in the Products can be significantly adversely affected.

Further Information

For further details on the Product related risks please consult the risk disclosure brochure "Risks Involved in Trading Financial Instruments" (Edition 2023) which is available on the Swiss Bankers Association's website: https://www.swissbanking.org/en/services/library/guidelines or may be obtained from your client advisor upon request..

IV. Important Additional Information

This document does not constitute an offer or invitation to enter into any type of financial transaction and the Issuer has no obligation to issue the Products. This document is not the result of a financial analysis and therefore, is not subject to the "Directives on the Independence of Financial Research" from the Swiss Bankers Associations. The content of this document does therefore not fulfill the legal requirements for the independence of financial analyses and there is no restriction on trading in this regard.

Conflicts of Interest

The Issuer and affiliated companies may from time to time enter into transactions for their own account or for the account of a client that are related to the Products. These transactions may not be for the benefit of the investor and may have positive or negative effects on the value of the Underlying(s) and thus on the value of the Products. Companies affiliated to the Issuer may also become counterparties in hedging transactions. Accordingly, conflicts of interest may therefore arise with regard to obligations relating to the ascertainment of the values of the Products and other related determinations both among affiliated companies of the Issuer and between these companies and the investors. In addition, the Issuer and affiliated companies may exercise a different function, if applicable, in relation to the products, for example as calculation agent, paying agent or administrative office.

Distribution Compensation/Distribution Allowances from and to Third Parties

In connection with the Products, the Issuer and/or its affiliates may pay to third parties or to each other, or receive from third parties one-time or recurring remunerations (e.g. placement or holding fees). Such remunerations, if any, are included in the Issue Price. Investors may request further information from Bank Julius Baer & Co. Ltd. By receiving payments in connection with the Products, the interest of the Issuer or such affiliate or the third party, as the case may be, may conflict with the interest of the investor in the Products.

Amendments to the Product Conditions

Information regarding unforeseen changes to the conditions of the Product which may arise during the lifetime of the Products are not subject to this document but may be obtained from your client advisor upon request and will be published on: http://derivatives.juliusbaer.com; corporate actions. This document will not be amended throughout the term of the Products.

Selling Restrictions

The Products were not registered with the local regulator and are not publicly distributable outside of Switzerland. The Products may not be offered in any jurisdiction in circumstances that would result in the Issuer being obliged to register any further prospectus relating to the Products in that jurisdiction. Potential purchasers of the Products are advised to read the detailed selling restrictions in the Base Prospectus and the Final Terms. Potential purchasers of the Products should seek specific advice before purchasing or selling-on a Product. Particular attention should be paid to the selling restrictions set out in the Base Prospectus and the Final Terms with respect to the following jurisdictions: European Economic Area (EEA), United States of America, United Kingdom, Guernsey, The Netherlands, Italy, Hong Kong, Singapore, Dubai International Financial Centre, United Arab Emirates, Kingdom of Bahrain, Israel, Uruguay, Panama, Bahamas, Lebanon.

These restrictions must not be taken as conclusive guidance as to whether the Products can be sold in a jurisdiction.
