Actively Managed Certificate on Fixed Income Unconstrained Basket

(the "Products")

100% Participation on Actively Managed Basket – Open End – Cash Settlement – EUR

This document is for information purposes only and only available in English.

A Product does not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA"). Therefore, it is not subject to authorization by the Swiss Financial Market Supervisory Authority FINMA ("FINMA") and potential investors do not benefit from the specific investor protection provided under the CISA and are exposed to the credit risk of the Issuer.

The Products are linked to the performance of a dynamic, discretionary managed basket.

I. Product Description

Terms

Issuer	Bank Julius Baer & Co. Ltd., Guernsey Branch (Rating: Moody's A2) (Prudential Supervision: by the Swiss Financial Market Supervisory Authority FINMA)
Lead Manager	Bank Julius Baer & Co. Ltd., Zurich
Swiss Security Number (Valor)	48632287
ISIN	CH0486322875
Issue Size	Up to 20,000 Products (EUR 20,000,000)
Issue Currency	EUR
Subscription Period	08 July 2019 – 12 July 2019, 17:30 CET
Issue Price	EUR 1,000.00 (per Product; including the Distribution Fee)
Denomination	EUR 1000.00
Initial Fixing Date	15 July 2019 , being the date during which the Initial Value and the initial composition of the Underlying are determined.
Issue Date/Payment Date	18 July 2019 , being the date on which the Products are issued and the Issue Price is paid.
Final Fixing Date	The Call Date or the relevant Put Date, as applicable.

Advisor:

**WOOD
MAN.**

Final Redemption Date

The date that is five Business Days after the earlier of (x), in respect to all Products, the Call Date on which the Issuer has exercised its Issuer Call Option or (y), in respect to a particular Product, the Put Date on which the Holder of such Product has exercised its Holder Put Option.

Issuer Call Option

Unless previously redeemed, repurchased or cancelled, on any Call Date the Issuer may exercise its right to redeem the Products, subject to a 35 days notice on the last trading day of the month, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount per Product by notifying the Holders of such exercise on or prior to such Call Date; provided, however, that any outstanding Products that are subject to a Holder Put Option exercised prior to such Call Date shall be excluded.

Holder Put Option

Unless previously redeemed, repurchased or cancelled, on any Put Date the Holder of any Product may exercise, subject to a 35 days notice on the last trading day of the month, its right to require the Issuer to redeem such Product on the applicable Final Redemption Date at the Final Redemption Amount by delivering an Exercise Notice to the Paying Agent on or prior to such Put Date.

Call Date(s)

Any Business Day on or after the Issue Date, subject to a 35 days notice on the last trading day of the month, being the dates on which the Issuer may exercise its right to redeem each Product on the applicable Final Redemption Date at the Final Redemption Amount.

Put Date(s)

Any Business Day on or after the Issue Date and prior to the Call Date on which the Issuer exercises the Issuer Call Option, subject to a 35 days notice on the last trading day of the month, being the dates on which any Holder may exercise its right to require the Issuer to redeem any Product held by such Holder on the applicable Final Redemption Date at the Final Redemption Amount.

Exercise Notice

With respect to any Product(s), a notice in a form satisfactory to the Paying Agent exercising the Holder Put Option with respect to such Product(s).

Underlying

EUR Bond Basket

Sponsor

Bank Julius Baer & Co. Ltd., Zurich

Advisor

Woodman Asset Management AG, Zug, Switzerland
Authorized by the Swiss Financial Market Authority FINMA

Underlying Description

The Underlying is a basket representing an actively managed portfolio consisting of various investment products (see also below the definition of Investment Universe), which is discretionary managed over the course of the term of the Products by the Advisor.

There is no obligation on the Issuer, the Sponsor or the Advisor or any other party to purchase and/or hold any components contained in the Underlying and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. The Underlying is merely comprised of components, the performance of which is used as a reference point for the purpose of calculating the value of the Underlying. References to any changes in the composition of the Underlying should not be construed as imposing an obligation on the Issuer, the Sponsor, the Advisor or any person to actually acquire or dispose of any securities, depositary receipts, futures, other investments, assets or other property but are references to the change in, and relate solely to the calculation of, the value of the Underlying which is relevant for the determination of amounts payable in respect of the Products.

Investment Strategy (Basic Parameters)

The Investment Strategy represents an actively managed basket of selected securities, which is based on investment advice and recommendation by Woodman Asset Management AG. The portfolio includes international bonds, funds and ETFs. Investment decisions will be taken on the basis of fundamental, technical and market specific data and aim for an absolute positive performance of the Certificate.

The foreign exchange risk is hedged at the Advisor's sole discretion (see FX Hedging Effectt)

Investment Guidelines

Only investments in investment products contained in the Investment Universe (as defined below) are permitted. Short selling and borrowing are not permitted. The Advisor is permitted to change the composition of the basket on a daily basis. Nevertheless, the Sponsor is entitled to reject changes in the composition of the basket and/or leverage in case of more than 52 changes per year. At the portfolio turnover date, the Advisor will adhere to the Diversification Rules set out below. At any time, the basket contains a minimum of 5 and a maximum of 30 components (excluding cash).

The Investment Guidelines and the Investment Universe must be respected on the initial fixing of the basket and upon any change in the composition of the basket. The Advisor is free to correct infringements of the Investment Guidelines which might possibly occur thereafter. No liabilities are assumed by the Advisor or the Sponsor due to such infringements.

Diversification Rules

The limits below are in percent of the total portfolio's value:

- Maximum weight for cash: 90%
- Maximum number of components (excluding cash): 50
- Maximum weight per position: 15%
- Minimum weight per position: 0.50%
- Minimum number of Funds: 0
- Maximum number of Funds: 15
- Minimum rating for bond components: B-
- Maximum weight for Non-Investment Grade Bonds combined limit: 50%

The following credit rating agencies are considered for the issue-rating of the underlying bonds: S&P, Moody's & Fitch. The best issue-rating of the mentioned credit rating agencies will be used where available. If no issue-rating is available the bond will be classified automatically as junk bond (highest risk class).

Investment Universe

The portfolio can include Exchange traded products (ETF, ETN and ETC), Money market ETFs, Funds, straight bonds, zero bonds, floater bonds, corporate bonds, government bonds, municipal bonds, inflation linked bonds, perpetual bonds, covered bonds, non-rated bonds and subordinated debt/bonds, structured products, long futures, short futures. Swiss domestic bonds issued by Swiss domiciled debtors are not allowed. Underlyings have to be tradable at least daily.

Geographical and sector focus:

- Worldwide, Developed Markets (DM), Emerging Markets (EM)
- Government bonds DM and EM
- Investment grade DM and EM
- High Yield DM and EM
- Subordinated DM and EM

Structured products will have to meet the following conditions:

- Dirty price quotation only
- Continuous quotation on Bloomberg and Thomson Reuters

Futures (long-short) of the following index futures are permitted (leverage is not permitted):

Name	BBG Symbol (Generic)
E-mini S&P	ESA Index
E-mini Nasdaq 100	NQA Index
Euro Stoxx 50	VGA Index
DAX mini	DFWA Index
SMI	SMA Index
US Treasury Bond	WNA Comdty
10 Year T-Notes	TYA Comdty
Euro Bund	RXA Comdty
Euro Bobl	OEA Comdty
Swiss Conf	FBA Comdty
Euro-BTP	IKA Comdty

Short futures in the portfolio can only be used for hedging purpose and are cash-flow neutral.

Any underlying needed to cover short call options shall be excluded.

A notional cash flow would only take place when a futures position had to be closed. Therefore the performance of potential futures would be exposed to FX risk if the currency would not correspond to the Certificate's currency.

If at maturity the roll-over of the futures positions causes a negative cash component, the Advisor should balance this within the next turnover. The Sponsor has the option to apply funding costs on the negative cash component.

Minimum net exposure: 0

Maximum gross long exposure: 100% of Certificate Value

Maximum gross short exposure: 100% of Certificate Value

Whereas:

Net exposure consists of all positions in Certificate excluding cash.

Gross long exposure consists of all long positions in Certificate excluding cash.

Gross short exposure consists of all short positions in Certificate excluding cash.

Long futures in the portfolio would be treated like active positions and must be notionally fully funded.

The Sponsor has the right to unwind futures positions to avoid unnecessary risk or due to any other reason.

The Sponsor has the option (the right but not the obligation) to execute a stop loss order on such a futures product, in order to unwind it, once the Certificate Value reaches 20% of the Denomination or the total futures' loss reaches 10% of the Certificate Value.

	<p>The liquidity of potential credit bonds must be sufficient with respect to the issued volume of the Certificates. Therefore the Sponsor has the right to reject components which form part of the Investment Universe (see „Right of Objection“ below).</p> <p>Besides the aforementioned assets, the Underlying may contain a cash component in the Product's currency (CHF, USD, GBP, JPY, CAD, NOK, AUD, SGD, SEK and NZD are also allowed). This cash component may reach temporarily up to 90%. No interest is paid on this cash component. A negative interest rate may be applied due to market conditions.</p> <p>The Advisor has the possibility, but not the obligation to hedge the foreign currencies (see FX Hedging Effect). Currency risk is hedged by holding a short position in the currency of the Underlying with the size of the market value of the Underlying and by holding a corresponding long position in the denomination currency of the Product. The FX hedge will be rebalanced at the Advisor's sole discretion. The investors achieve a maximum possible participation in the actual performance of the price of the respective underlying for investors, without any financial impairment were the exchange rates to decline but also without any additional opportunities for gains were the exchange rates to rise.</p>
Change of Basket Composition	The Sponsor will use its best effort to implement the Advisor's investment decisions as soon as practical. This may take several days as the Sponsor might have to enter into respective hedging transactions relating to its obligations under the Products due to its position as Issuer of the Products. No assurance can be given that all investment decisions will be realized as intended by the Advisor. The Sponsor implements the changes in the composition of the basket on a discretionary basis at the respective net ask and bid prices available on the market or, if he considers this necessary due to the market constellation, the Sponsor implements it on a discretionary basis at the respective average net ask and bid prices of the assets.
Right of Objection	The Sponsor has the right to reject components selected by the Advisor at his sole discretion should any situation whatsoever arise whereby the Sponsor (a) due to technical constraints cannot execute the Advisor's investment decision or (b) due to any other reasons is unable to hedge its position as Issuer of the Products.
No Reinvestment of the Returns	The Sponsor does not (re-)invest any returns (coupon payments deducting possible withholding taxes) into the corresponding assets.
Adjustments	The Sponsor decides according to the terms outlined in the Base Prospectus and the Final Terms how the basket is adjusted when dilution and concentration effects occur, investors' rights change as well as in comparable situations. The adjustments are implemented on or around the respective trading day. No liabilities are assumed by the Sponsor due to possible infringements of the Investment Guidelines which might occur as a consequence of such adjustments. The value of the basket is not retroactively adjusted.
Responsibility	Subject to the Investment Guidelines, the Advisor is responsible for the composition of the basket and the weighting of the basket components. The performance of the basket - and therefore of the Product - depends, among other things, on the quality of the Advisor's investment decisions. The Sponsor is only responsible for the administration of the Product. Neither the Issuer nor the Sponsor assume responsibility whatsoever for the composition of the basket and its impact on the performance of the Products.
Information about the Investment Strategy	Further Information about the Investment Strategy is free of charge available from the Issuer upon request.
Composition of the Underlying	Information about the current composition of the Underlying is available from the Issuer upon request.
Redemption	
Final Redemption	Unless previously redeemed, repurchased or cancelled, the Issuer shall redeem each Product on the Final Redemption Date by payment of the Final Redemption Amount to the Holder thereof.
Final Redemption Amount	<p>A cash amount equal to the Strategy Value minus the accrued Recurring Fees and minus the incurred FX hedging costs, calculated by the Calculation Agent on the Final Fixing Date in accordance with the following formula:</p> $\text{Strategy Value}_t - \text{accrued Recurring Fees} - \text{FX Hedging Effect}_t$
Settlement Type	Cash settlement
Strategy Value_t	The value of the Underlying, determined by the sum of the value of each of the assets contained in the Underlying at a point in time t (including the cash component expressed in the Issue Currency), converted to the Issue Currency at the then prevailing exchange rate(s), as determined by the Calculation Agent.
Initial Value	EUR 1000.00

Recurring Fees	The Administration Fee and the Advisory Fee (the "Recurring Fees") The Recurring Fees are calculated and deducted from the Strategy Value by the Calculation Agent on a daily basis.
Administration Fee	0.35% p.a. of the Strategy Value
Transaction Costs upon Portfolio Turnover (Rebalancing Fee)	0.10%
Advisory Fee	0.65% p.a. of the Strategy Value
Distribution Fee	Up to 0.00% p.a. of the Issue Price (incl. VAT, if any), calculated on the basis of a hypothetical term of 10 years; The Distribution Fee will be allocated / paid to the internal and/or external Distributor. For further details please see under section IV "Distribution Compensation/Distribution Allowances from and to Third Parties".
FX Hedging Effect,	The hedge costs incurred through the interest rate differential between the involved currencies (underlying currency and denomination currency) at a point in time t as determined by the Calculation Agent and the imperfectness of the hedges due to the fact that the hedge-rebalancing frequency is not continuous, if FX is hedged.

Performance Fee

Performance Fee:	10%
Hurdle Rate:	<p>$Hurdle Rate_{Qt}$ = The closing level of Euribor (EUR003M Index)*(Days/360) floored at 0 as of the Performance Fee Record Date</p> <p>$Compounded Hurdle Rate_{Qt} = \prod_{i=0}^n (1 + Hurdle Rate_{Qt-i}) - 1$</p> <p>$Q_t$ = current quarter</p> <p>n = all consecutive periods immediately preceding to Q_t, in which no Performance Fee has been paid out</p> <p>Days = the number of calendar days in Q_t</p> <p>This calculation guarantees that the performance of the risk-free rate (i.e. 3 months Euribor) is considered even if no Performance Fee has been paid out.</p>
Observation Interval:	Quarterly (3 months)
High Watermark:	Applicable. For the first Performance Fee Record Date the High Watermark is equivalent to the Issue Price. Thereafter, if the Certificate Level is higher than the previous High Watermark and if the Manager is entitled to a Performance Fee, the High Watermark is set to that level before deduction of the Performance Fee Calculation Amount.
Performance Fee entitlement:	<p>A Performance Fee is paid to the Manager if the performance of the Certificate exceeds the Hurdle Rate at the Performance Fee Record Date, subject to High Watermark.</p> <p>If $\frac{Certificate Level (t)}{High Watermark} - 1 > Compounded Hurdle Rate_{Qt}$, then Performance Fee applies</p>
Performance Fee Calculation Amount*:	<p>$HighWatermark * \left(\left(\frac{Certificate Level (t)}{High Watermark} - 1 \right) - Compounded Hurdle Rate_{Qt} \right) * Performance Fee$</p> <p>*The Performance Fee Calculation Amount cannot be a negative number.</p>
Certificate Level _(t) :	Value of the certificate on the Performance Fee Record Date as published at end of day by the Calculation Agent (mid price).
Performance Fee Record Dates:	<p>Initial Fixing Date (i.e. 15.07 2019) + Observation Interval (recurring thereafter based on the Observation Interval, i.e. on the 15th of the respective month or any immediately preceding business day, should the 15th fall not on a business day)</p> <p>If no Certificate Level can be published on this date, the latest published Certificate Level prior to this date is applied.</p> <p>Inter-periodic flows are not considered.</p>
Performance Fee Ex Dates:	One business day after the Performance Fee Record Date. The Certificate Level will drop by the Performance Fee Calculation Amount at this date.
Performance Fee Payment Dates:	<p>Performance Fee Record Date + 5 business days</p> <p>The Performance Fee Calculation Amount will be deducted from the Certificate Level on each Performance Fee Ex Date and paid out on every Performance Fee Payment Date.</p>

**Swiss
Taxation**

Stamp duty Issuance and secondary market transactions are in principle subject to the Federal Turnover Tax ("Umsatzabgabe") if a securities dealer ("Effektenhändler"), as defined in the Swiss Federal Act on Stamp Duties ("Stempelabgabengesetz"), is a party to the transaction or acts as an intermediary thereto.

Withholding tax No Swiss Federal withholding tax.

Income tax For private investors (individuals) with tax residence in Switzerland, the Product is treated like a unit of a collective investment scheme. The Issuer informs the Swiss Federal Tax Administration about the capital gains/losses and the earnings on the assets on an annual basis. Only the declared net earnings on the assets are subject to income tax.

The aforementioned tax description is based on the relevant tax laws and regulations of the tax authorities valid at the time of launch of this issue. These laws and regulations may change at any time, possibly with retroactive effect. Furthermore the tax treatment may depend on the personal situation of the investor and may be subject to change in the future. This information is not purported to be a complete description of all potential tax effects. Potential investors are advised to consult their tax advisors to determine the special tax consequences of the purchase, ownership or disposition of the Product.

General Tax Information

Transactions and payments related to this product may be subject to additional (foreign) transaction taxes and or withholding taxes such as US withholding taxes pursuant to FATCA (Foreign Account Tax Compliance Act) or the Section 871(m) of the US Internal Revenue Code. Any amounts due shall be paid net of such taxes. The issuer is not obliged to pay additional amounts with regard to amounts so withheld.

Product Description

The Products are financial instruments which allow the investor to fully participate in the positive performance of the Underlying, but which also reflect the development of the Underlying if its performance is negative. The Underlying is an actively managed basket of securities, as described below under section "Underlying".

On the Final Redemption Date, the Product is redeemed at the Final Redemption Amount, which amount will be dependent upon the performance of the Underlying, and will also be adjusted for applicable fees and costs.

The Products enable the holder thereof to benefit from an unlimited participation in any positive performance of the Underlying. Therefore, if the Underlying performs positively, an investment in the Products directly reflects the positive performance of the Underlying. Likewise, if the Underlying performs negatively, an investment in the Products directly reflects the negative performance of the Underlying. Therefore, the risk associated with an investment in the Products is comparable to the risk associated with a direct investment in the Underlying, and a total loss of the amount invested in the Products is possible, although any such loss is limited to the amount invested.

There is no obligation on the Issuer to purchase and/or hold any components contained in the Underlying. The Issuer shall be free to choose how to invest the proceeds from the issuance of the Products.

The Products are open-ended which means that they do not have a fixed maturity date. Instead, such Product provides for an investor a termination right (Holder Put Option) and for the Issuer an Issuer termination right (Issuer Call Option) both subject to a 35 days written notice.

Product Documentation

The complete and legally binding terms and conditions of the Products are set forth in the base prospectus for the issuance of Participation Products of Bank Julius Baer & Co. Ltd. (the "Bank"), dated 17 June 2019, as supplemented from time to time (the "Base Prospectus") and the relevant final terms prepared in relation to the Products (the "Final Terms"). The Base Prospectus and the Final Terms may be obtained free of charge from Bank Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

This document is designated for distribution and use in Switzerland. Neither the Issuer nor any other person assumes any responsibility for the compliance of this document with any applicable law and regulations in any jurisdiction other than Switzerland.

Details

Paying Agent	Bank Julius Baer & Co. Ltd., Zurich and any agents or other persons acting on behalf of such Paying Agent and any successor appointed by the Issuer
Listing and Admission to Trading	None
Trading (Secondary Market)	Under normal market conditions, Bank Julius Baer & Co. Ltd. Zurich will endeavour to provide a secondary market, but is under no legal obligation to do so.
Minimum Investment Lot	1 Certificate
Quotation	The Products are traded in units and are booked accordingly.
Clearing System	SIX SIS AG
Form	Uncertificated Securities
Governing Law / Jurisdiction	Swiss Law / Zurich 1, Switzerland

II. Profit and Loss Prospects

This Product is aimed at investors who expect a positive performance of the Underlying. The potential return on a Product is not limited, but dependent on the value of the Underlying, *i.e.* the investor benefits fully from an increase in the value of the Underlying over the term of the Product and the quality of the investment decisions of the Advisor.

The potential loss associated with an investment in the Products is also dependent on the value of the Underlying. A total loss may occur if the Underlying and the securities contained in the actively managed basket, respectively, have no value on the Final Fixing Date.

III. Significant Risks for Investors

The following risk disclosure cannot disclose all the risks associated with an investment in the Products. Therefore, potential investors in Products should consult the Base Prospectus and the Final Terms and their client advisor as to the product specific risks before making an investment decision.

1. Issuer Risk

Investors bear the credit risk of the Issuer. The Products' retention of value is dependent not only on the development of the value of the Underlying, but also on the creditworthiness of the Issuer, which may change over the term of the Product. The credit rating of the Issuer is not a guarantee of credit quality. In case of the Issuer's insolvency or bankruptcy the investors in the Products may lose their entire investment.

The Products are direct, unconditional, unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, claims of investors in Products will rank equally in right of payment with all other unsecured and unsubordinated obligations of the Issuer, except such obligations given priority by law. In such a case, investors in Products may suffer a loss of all or a portion of their investment therein, irrespective of any favourable development of the other value determining factors, such as the performance of the Underlying(s).

The Products do not constitute bank accounts or deposits at Bank Julius Baer & Co. Ltd. The Products are less liquid than bank accounts or deposits and bear higher risks. An investment in Products will not be covered by any compensation or insurance scheme (such as a bank deposit protection scheme) of any government agency of Switzerland or any other jurisdiction and Products do not have the benefit of any government guarantee. Products are the obligations of the Issuer only and holders of Products must look solely to the Issuer for the performance of the Issuer's obligations under such Products. In the event of the insolvency of the Issuer, an investor in Products may lose all or some of its investment therein.

Bank Julius Baer & Co. Ltd. is a bank pursuant to the Federal Banking Act (BA; SR 952.0) and a securities dealer pursuant to the Federal Act on Stock Exchanges and Complex Products Trading (SESTA; SR 954.1) subject to the prudential supervision by the Swiss Financial Market Supervisory Authority FINMA in Berne (Laupenstrasse 27, CH-3003 Berne; <http://www.finma.ch>).

The Issuer, Bank Julius Baer & Co. Ltd, Guernsey Branch (a branch of Bank Julius Baer & Co. Ltd., Zurich, founded in Switzerland and under the supervision of the Swiss Financial Market Supervisory Authority FINMA), is licensed in Guernsey under the Banking Supervision (Bailiwick of Guernsey) Law 1994 and The Protection of Investors (Bailiwick of Guernsey) Law 1987. Neither the Guernsey Financial Services Commission (P.O. Box 128, Glatigny Court, Glatigny Esplanade, St. Peter Port, Guernsey, Channel Islands, GY1 3HQ) nor the States of Guernsey Policy Council takes any responsibility for the financial soundness of the Issue or for the correctness of any of the statements made or opinions expressed with regard to it.

2. Product Risks

An investment in Products entails certain risks, which vary depending on the specific type and structure of the relevant Products and the relevant Underlying(s).

An investment in Products requires a thorough understanding of the nature of Products. Potential investors in Products should be experienced with respect to an investment in complex financial instruments and be aware of the related risks. A potential investor in Products should determine the suitability of such an investment in light of such investor's particular circumstances. In particular, a potential investor in Products should:

- have sufficient knowledge and experience to make a meaningful evaluation of Products, the merits and risks of investing in Products and the information contained in the Base Prospectus and the applicable Terms and Conditions;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of such investor's particular financial situation, an investment in Products and the impact the relevant Products will have on such investor's overall investment portfolio;
- have sufficient financial resources to bear all the risks of an investment in the relevant Products;
- understand thoroughly the Terms and Conditions applicable to the relevant Products and be familiar with the behaviour of the relevant Underlying(s) and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect such investor's investment and ability to bear the applicable risks of an investment in Products until their redemption; and
- recognise that it may not be possible to dispose of Products for a substantial period of time, if at all, before their redemption.

The trading market for securities, such as Products, may be volatile and may be adversely impacted by many events.

Products are complex financial instruments. Investors generally purchase complex financial instruments as a way to enhance yield with an understood, measured, appropriate addition of risk to their overall investment portfolios. A potential investor should not invest in Products unless such investor has the expertise (either alone or with the help of a financial adviser) to evaluate how the relevant Products will perform under changing conditions, the resulting effects on the market value of the relevant Products and the impact such an investment will have on such investor's overall investment portfolio.

Risk of total loss

Products involve a high degree of risk, and prospective investors in the Products should recognise that, under certain circumstances, Products may have a redemption value of zero. Prospective investors should therefore be prepared to sustain a partial or total loss of the amount of their investment therein.

Unpredictable Market Value for Products

During the term of a Product, the market value of, and the expected return on, such Product may be influenced by many factors, some or all of which may be unpredictable. Many economic and market factors will influence the market value of a Product. The Issuer expects that, generally, the value and volatility of the Underlying(s) on any day will affect the market value of such Product more than any other single factor. However, a potential

investor should not expect the market value of a Product in the secondary market to vary in proportion to changes in the value of the Underlying(s). The return on a Product (if any) may bear little relation to, and may be much less than, the return that the investor therein might have achieved if such investor had invested directly in the Underlying(s).

The market value of, and return (if any) on, a Product will be affected by a number of other factors, which may be unpredictable or beyond the Issuer's control, and which may offset or magnify each other, including, without limitation:

- supply and demand for such Product, including inventory positions of any other market maker;
- the expected frequency and magnitude of changes in the market value of the Underlying(s) (volatility);
- economic, financial, political or regulatory events or judicial decisions that affect the Issuer, the Underlying(s) or the financial markets generally;
- interest and yield rates in the market generally;
- the time remaining until the Final Redemption Date;
- if applicable, the difference between the Level or Commodity Reference Price, as applicable, and the relevant threshold specified in the applicable Terms and Conditions;
- the Issuer's creditworthiness, including actual or anticipated downgrades in the Issuer's credit ratings; and
- dividend payments on the Underlying(s), if any.

Some or all of these factors may influence the price of a Product. The impact of any of the factors set forth above may enhance or offset some or all of any change resulting from another factor or factors.

In addition, certain built-in costs are likely to adversely affect the market value of Products. All expenses, charges and funding costs (pre-financing costs) incurred by the Issuer in connection with the replication of the notional Underlying starting from the Initial Fixing Date (or, if applicable, during the Initial Fixing Period) up to the Issue Date/Payment Date will be deducted from the Strategy Value on the Issue Date/Payment Date (Initial Value). The price at which the Issuer will be willing to purchase Products from a holder in secondary market transactions, if at all, will likely be lower than the original Issue Price.

Exposure to the performance of the Underlyings

Each Product will represent an investment linked to the performance of the Underlying(s) and potential investors should note that any amount(s) payable or other benefit to be received under the Products will generally depend upon the performance of the Underlying(s). The past performance of the Underlyings is not indicative of the future performance.

No obligation on any other party to purchase and/or hold interests in the Underlying or any components contained in the Underlying

Investors should be aware that there is no obligation on the Issuer or any other party to purchase and/or hold interests in the Underlying or any components contained in the Underlying and there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest.

Exchange Rate Risk

The Underlying(s) may be denominated in a currency other than that of the Issue Currency or, if applicable, the Settlement Currency for such Product, or the Underlying(s) may be denominated in a currency other than, or the Issue Currency or, if applicable, the Settlement Currency may not be, the currency of the home jurisdiction of the investor in such Product. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are in particular influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Therefore, fluctuations in exchange rates may adversely affect the market value of a Product or the value of the Underlying(s).

Secondary Market

The Issuer cannot provide any assurances as to how the Certificates will trade in the secondary market or whether such market will be liquid or illiquid. Due to the composition of the Underlying and the potentially limited liquidity of its components, investors must also be aware of an increased spread risk compared to other structured products. This means that during the term of the Product, bid and offer prices may differ to a considerable extent. Although the Lead Manager intends to provide market making subject to normal market conditions, he is not obliged to do so. Further, the investor may only be able to sell the Product in the secondary market at a lower price than the original purchase price. It is important to note that if the Issuer decides to repurchase from the investor or sell to the investor Products on the secondary market, it cannot guarantee to take back/sell unlimited volumes of the Product at the prices provided by the Lead Manager. Purchases of Product units on the secondary market will increase the available cash quota within the Product while diluting, in percentage terms, all other holdings. Sales of Product units on the secondary market will decrease the available cash quota within the Product while increasing, in percentage terms, all other holdings. If a situation arises where the available cash quota within the Product is insufficient to accommodate secondary market selling transactions, then the Advisor will advise the Sponsor about which holding shall be sold or reduced. If the Advisor cannot be reached in due time or doesn't provide any advice to the Sponsor, then the Sponsor has the right to reduce at its sole discretion any holding within the Product or has the right to reject to execute the secondary market selling transactions. The Issuer provides a secondary market with daily liquidity. Secondary market transaction orders will be collected by the Issuer every day, 16:00 Zurich Time (Cut-Off). If such date does not fall on a Business Day, the Issuer shall be obliged to collect the orders on the Business Day immediately following. Sale and purchase secondary market transaction orders from the investors will be executed at Mid Price* -0.25% and Mid Price* +0.25% respectively. The new resulting cash quota will be reflected in the Product the following business day. At no time does the Issuer have an obligation to repurchase/sell Products.

*Mid Price being the sum of the value of each component contained in the Underlying at a point in time t, as determined by the Calculation Agent.

Early Redemption

The investors must be aware of a possible early redemption of the Product.

Upon the occurrence of an extraordinary event, the Calculation Agent and the Issuer, acting together, have the right to, among other things, early redeem the relevant Products. If the Issuer exercises such early redemption right(s), investors should be aware that the early redemption price may be considerably lower than the Issue Price (or, if different, the price the relevant investor paid for such product) and/or the Final Redemption Amount that would otherwise have been paid on the Final Redemption Date.

Open-end feature

Investors should be aware that Products have a so called open-end feature, i.e., the Products do not have a fixed maturity date. Instead, such Products provide for a Holder Put Option (i.e., an investor may, on any Put Date, exercise its right to require the Issuer to redeem its Product(s) on the applicable Final Redemption Date at the Final Redemption Amount), and an Issuer Call Option (i.e., the Issuer may, on any Call Date, exercise its right to redeem the Products, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount). The Issuer and each investor in any such Product may exercise its Issuer Call Option and Holder Put Option, respectively, at its own discretion.

Issuer Call Option and Put Holder Option

The Products provide for a Holder Put Option (i.e., an investor may, on any Put Date, exercise its right to require the Issuer to redeem its Product(s) on the applicable Final Redemption Date at the Final Redemption Amount), and an Issuer Call Option (i.e., the Issuer may, on any Call Date, exercise its right to redeem the Products, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount). The Issuer and each investor in any such Product may exercise its Issuer Call Option and Holder Put Option, respectively, at its own discretion.

Further product specific risks

The Products are complex financial instruments, may therefore involve a high degree of risk and are intended for use only by

sophisticated investors who are capable of understanding and assuming the risks involved. Before entering into any transaction, an investor should determine if this Product is suitable with regards to the particular circumstances and should independently assess (together with the client advisor) the specific risks as described herein and any other legal, regulatory or credit consequences. The Issuer makes no representation as to the suitability or appropriateness of this Product for any particular investor. This document does not replace a personal discussion with your client advisor, which is tailored to your requirements, investment objectives, experience, knowledge and circumstances and which is recommended by the Issuer before the investment decision. Please ask your client advisor about supporting information regarding this Product.

The return on the Products depends on the performance of the Underlying. Since the basket of securities is actively managed by the Advisor, the performance of the Product depends on the quality of the investment decisions of the Advisor. As past performance is no guarantee of future development, the performance cannot be predicted at the time of the investment decision. Further, there is no assurance that all investment decisions intended by the Advisor will be realised and that its expectations regarding the performance of the Products will be met.

Investors should be aware that an investment in these Products generally results in a loss upon redemption if the value of the Underlying decreases. Consequently, the potential loss associated with an investment in such Products is linked to the negative performance of the Underlying. Investors in the Products should be prepared to sustain a partial or total loss of their investment.

Further Information

For further details on the Product related risks please consult the risk disclosure brochure "Special Risks in Complex Products Trading" (Edition 2008) which is available on the Swiss Bankers Association's website:

<http://www.swissbanking.org/en/home/shop.htm> or may be obtained from your client advisor upon request.

IV. Important Additional Information

If the Product is not listed on SIX Swiss Exchange, this document constitutes the simplified prospectus for the Products pursuant to Article 5 of the Swiss Federal Act on Collective Investment Schemes ("CISA") and is of summary nature with a view to include the information required by Article 5 CISA and the Guidelines of the Swiss Bankers Association dated July 2007 in relation to the Information for Investors in Structured Products. The simplified prospectus may be obtained free of charge from Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

This document does not constitute an offer or invitation to enter into any type of financial transaction and the Issuer has no obligation to issue the Products. This document is not the result of a financial analysis and therefore, is not subject to the "Directives on the Independence of Financial Research" from the Swiss Bankers Associations. The content of this document does therefore not fulfill the legal requirements for the independence of financial analyses and there is no restriction on trading in this regard.

Conflicts of Interest

The Issuer and affiliated companies may from time to time enter into transactions for their own account or for the account of a client that are related to the Products. These transactions may not be for the benefit of the investor and may have positive or negative effects on the value of the Underlying(s) and thus on the value of the Products. Companies affiliated to the Issuer may also become counterparties in hedging transactions. Accordingly, conflicts of interest may therefore arise with regard to obligations relating to the ascertainment of the values of the Products and other related determinations both among affiliated companies of the Issuer and between these companies and the investors. In addition, the Issuer and affiliated companies may exercise a different function, if applicable, in relation to the products, for example as calculation agent, paying agent or administrative office.

Distribution Compensation/Distribution Allowances from and to Third Parties

In connection with the Products, the Issuer and/or its affiliates may pay to third parties or to each other, or receive from third parties one-time or recurring remunerations (e.g. placement or holding fees). Such remunerations, if any, are included in the Issue Price. Investors may request further information from Bank Julius Baer & Co. Ltd. By receiving payments in connection with the Products, the interest of the Issuer or such affiliate may be adverse to the interest of the investor in the Products.

Amendments to the Product Conditions

Information regarding unforeseen changes to the conditions of the Product which may arise during the lifetime of the Products are not subject to this document but may be obtained from your client advisor upon request and will be published on:

<http://derivatives.juliusbaer.com>; corporate actions and/or http://www.six-swiss-exchange.com/news/official_notices/-search_en.html. This document will not be amended throughout the term of the Products.

Selling Restrictions

The Products were not registered with the local regulator and are not publicly distributable outside of Switzerland. The Products may not be offered in any jurisdiction in circumstances that would result in the Issuer being obliged to register any further prospectus relating to the Products in that jurisdiction. Potential purchasers of the Products are advised to read the detailed selling restrictions in the Base Prospectus and the Final Terms. Potential purchasers of the Products should seek specific advice before purchasing or selling-on a Product. Particular attention should be paid to the selling restrictions set out in the Base Prospectus and the Final Terms with respect to the following jurisdictions: European Economic Area (EEA), United States of America, United Kingdom, Guernsey, The Netherlands, Italy, Hong Kong, Singapore, Dubai International Financial Centre, United Arab Emirates, Kingdom of Bahrain, Israel, Uruguay, Panama. These restrictions must not be taken as conclusive guidance as to whether the Products can be sold in a jurisdiction.

Dividend equivalent payments

Investors should note that "dividend equivalent" payments made in connection with the Products are subject to a U.S. federal withholding tax under Section 871(m) of the U.S. Internal Revenue Code. The Issuer will always apply a withholding of 30 percent on such dividend equivalent payments linked to stocks of U.S. corporations or certain indices containing U.S. corporations. Accordingly, the investor will receive less than the amount he would have otherwise received in the absence of such withholding.
