Date and time of production of the KID	16 November 2026 10:42:21 CET

YOU ARE ABOUT TO PURCHASE A PRODUCT THAT IS NOT SIMPLE AND MAY BE DIFFICULT TO UNDERSTAND.

1. What is this product?

Type: Swiss law governed notes.

Term: The term of the product ends on the Final Redemption Date, unless the product has been terminated or redeemed early.

Objectives: Tracker Certificates are financial instruments which allow you to benefit from participation in any positive performance of the multiple underlyings with a basket feature. The Products reflect movements in the value of the Basket of the Underlyings. Therefore, if the value of the Basket increases, you proportionally participate in the increase of the Basket value. If the value of the Basket decreases, you also proportionally participate in the decrease of the Basket value. Therefore, the potential loss associated with an investment in this Tracker Certificate is linked to the negative performance of the Underlyings and is limited to the invested amount. For the determination of the performance of the Basket, the according Weight of each Underlying has to be taken into account. Since the final redemption amount of each of the Underlyings and, hence, the value of the basket of the Underlyings is capped at a certain level, the Final Redemption Amount of the Product is capped as well.

Final redemption: Unless previously redeemed, repurchased or cancelled, on the Final Redemption of the product on the Final Redemption Date, you will receive a cash amount equal to the Final Redemption Amount which is the product of (a) the Denomination plus the Capital Protection Factor and (b) the Final Basket Level minus the ratio of the Capital Protection Factor and the Initial Level); whereas the Capital Protection Factor equals Issue Price minus Denomination.

The product terms also provide that if certain extraordinary events occur, adjustments may be made to the product and Julius Baer may terminate the product early. These events are specified in the product terms and principally relate to the underlyings, the product and the product manufacturer. Therefore, investors should be prepared to sustain a partial or total loss of their investments.

Denomination	EUR 98.15
Issue Currency	EUR
Issue Price	EUR 100.00
Settlement Currency	EUR
Initial Level	with respect to each underlying, as specified below
Settlement Type	Cash settlement
Initial Fixing Date	16 November 2026
Issue Date	23 November 2026
Final Fixing Date	16 November 2028
Last Trading Date	16 November 2028
Final Redemption Date	24 November 2028

Final Level	with respect to each underlying, its redemption amount, as determined by the Calculation Agent
Basket	the basket of underlyings described in the table below
Weight	with respect to each underlying, the relevant Weight fixed on the Initial Fixing Date specified in the table below
Final Basket Level	The Final Level divided by its Initial Level multiplied by its Weight, calculated for each underlying and summed up.

Composition of the Basket on the Initial Fixing Date

Underlying	ISIN	Initial Level	Weight
JB 101.85% Capital Protection Note with Barrier on Cloudflare Inc	CH1627941607	EUR 100.00	10.00%
JB 101.85% Capital Protection Note with Barrier on Snowflake Inc.	CH1627941615	EUR 100.00	10.00%
JB 101.85% Capital Protection Note with Barrier on Palo Alto Networks Inc	CH1627941623	EUR 100.00	10.00%

JB 101.85% Capital Protection Note with Barrier on Twilio Inc	CH1627941672	EUR 100.00	10.00%
JB 101.85% Capital Protection Note with Barrier on Okta Inc	CH1627941698	EUR 100.00	10.00%
JB 101.85% Capital Protection Note with Barrier on MongoDB Inc	CH1627941714	EUR 100.00	10.00%
JB 101.85% Capital Protection Note with Barrier on Zscaler Inc	CH1627941748	EUR 100.00	10.00%

Intended retail investor

The product is intended to be offered to retail investors who fulfil all of the criteria below:

- Have sufficient knowledge and experience and a comprehensive understanding of the product, its market and its specific risks, either independently or through professional advice;
- Have the ability to bear a total loss of their investment;
- Have an investment horizon of the recommended holding period specified below;
- Seek income, expect the movement in the underlying to perform in a way that generates a favourable return;
- Are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product until 16 November 2028. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because Julius Baer is not able to pay you.

Julius Baer has classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact Julius Baer's capacity to pay you.

Be aware of currency risk. If the currency of your account is different to that of this product, you will be exposed to currency risk, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If Julius Baer is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 16 November 2028

Example Investment: EUR 10,000		**If you exit after 1 year**	**If you exit after 16 November 2028**
Minimum	There is no minimum guaranteed return. You can lose some or all of your investment.		
Stress	**What you might get back after costs** Average return each year	**EUR 9,830.00** -1.70%	**EUR 10,200.00** 1.00%
Unfavourable	**What you might get back after costs** Average return each year	**EUR 10,130.00** 1.30%	**EUR 10,200.00** 1.00%
Moderate	**What you might get back after costs** Average return each year	**EUR 10,240.00** 2.40%	**EUR 10,280.00** 1.40%
Favourable	**What you might get back after costs** Average return each year	**EUR 10,300.00** 3.00%	**EUR 11,390.00** 6.70%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.
The above scenarios are possible outcomes which have been calculated on the basis of simulations. In case of an early redemption the simulation assumes that no reinvestment is made.

If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

3. What happens if Julius Baer is unable to pay out?

You are exposed to the risk that Julius Baer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	**If you exit after 16 November 2028**
Total costs	EUR 152	EUR 154
Annual cost impact (*)	1.5% each year	0.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.20% before costs and 1.40% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge (EUR 152). This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		**If you exit after 1 year**
Entry costs	The impact of the costs already included in the price	EUR 152
Exit costs	The impact of the costs of exiting your investment when it matures	EUR 0
Ongoing costs		
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments	EUR 0
Transaction costs		-

5. How long should I hold it and can I take money out early?

Recommended holding period: 16 November 2028 (maturity date)

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity.

Disinvestment can only be done by selling the product either through the exchange (if the product is listed) or off-exchange, where an offer for such product exists. No fees or penalties will be charged by Julius Baer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical disruptions, the sale of the product can be temporarily hindered or suspended and may not be possible at all.

6. How can I complain?

Complaints about the conduct of the person advising on, or selling the product, may be submitted directly to that person or their supervisors. Complaints about the product or the conduct of the manufacturer of this product may be raised in writing to the following address: Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland and by email to: derivatives@juliusbaer.com or via the following website: https://derivatives.juliusbaer.com/en/home.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to enter into the product and is no substitute for individual consultation with your bank or advisor.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from Bank Julius Baer & Co. Ltd., Hohlstrasse 604/606, P.O. Box, 8010 Zurich, Switzerland (https://derivatives.juliusbaer.com/en/home).

The performance scenarios presented in this Key Information Document (KID) are based on a methodology, as set out in the EU Regulation 1286/2014 on Key Information Documents for Packaged Retail and Insurance-based Investment Products (PRIIPs) and its supplementing regulations. Compliance with the prescribed calculation methodology may result in unrealistic performance scenarios and values for a number of products.
