

## AMC ON NEXT GENERATION EQUITY PORTFOLIO CHF

### NEXT GENERATION STRATEGY

Next Generation is a thematic investment approach with a focus on capturing long-term structural growth in the key investment themes (Arising Asia, Digital Disruption, Energy Transition, Feeding the World, and Shifting Lifestyles). The investment process focuses on identifying structurally growing industries with low levels of rivalry, along with the winning companies within them.

### AMC MANAGER COMMENT

Our NextGen AMC (USD) rose 2.5% in March underperforming the global index by 0.6%, bringing the YTD performance to 11.5%, versus 8.2% for the benchmark. Market participation broadened in March from mega/large caps to smaller-sized companies, while Growth (+2.1%) underperformed Value (+4.3%). With this month's reporting our updated thematic classification will take effect (Consumer Trends replacing Arising Asia and Future Health replacing Shifting Lifestyles). Four out of five main themes generated positive returns in March with Future Health (+5.1%) performing best in March, while Consumer Trends (-1.6%) performed worst. In March, we adjusted our thematic exposure in Consumer Trends and Digital Disruption. We decided to exit our remaining position in Alibaba and reallocated the proceeds to Live Nation Entertainment due to its differentiated offering in the live entertainment space, which combines concert promotion with ticket sales via its fully owned platform Ticketmaster. Within Digital Disruption, we exited our positions in Keysight Technologies as we expect weakness in the communication services side of the business to continue to depress its earnings growth outlook and Match Group on intensifying competition in the online dating market. We initiated a position in technology research and advisory firm Gartner, as we see it well positioned to benefit from the growing complexity in technology.
